The Doctors and all staff would like to thank patients for being so understanding during the recent computer change over. It is still a learning curve for everyone and some are finding it easier than others, your continued patience is appreciated.

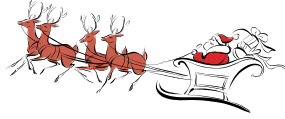

Self check in Screen

If you are only booking in for an appointment at reception it is a great help if you use the automated “self check in” screen. Don’t be shy its easy. Just follow the on screen instructions.

Press check in, select your DAY of birth on the Calendar, then touch the MONTH you were born. When it confirms your appointment touch FINISH.

Thank you
